

FriloTech

Seamless and Sustainable Cold Chain Solutions

Insulated Pallet Cover

Introducing FriloTech's Insulated Pallet Cover — powered by nature.

Designed for EU, US and Asian pallets, this innovative solution combines natural wool insulation with a weatherproof outer shell for maximum protection.

Our cover is made primarily from renewable, raw materials:

- GOTS certified outside and inside textile skin.
- Naturally impregnated outer shell for water resistance.
- Natural-fiber stitching
- Only the fastening system uses a small amount of synthetic material (Velcro) which can be easily removed.

Smart protection.
Natural performance.

Protect your goods — and the planet.

Contact us to order your sample today:

Fitting for:

 EU pallet	120 x 80 cm 47 x 31,5 in	Heights of 100/120/160 cm or 39/47/63 in (including pallet). Other heights on request.
 US pallet	120 x 100 cm 47 x 39,4 in	
 US XL pallet	130 x 107 cm 51.2 x 42.1 in	
 Asian pallet	110 x 110 cm 43.31 x 43.31 in	

Especially suitable for:

- Pharmaceutical & biotech shipments in the 2–25 °C range.
- Seasonal protection for sensitive goods like paints, coatings, or temperature-sensitive chemicals.
(Not suitable for extreme heat exposure)

Passive insulation,
no coolant required

Ideal for
air freight

Effective in the
2–25 °C range

Sustainable build: ~98%
natural and renewable materials

The pallet cover provides thermal
protection for up to 120 hours

Sustainability, built in.

Paving a better way

At FriloTech, sustainability is central to our mission, driving us to integrate eco-friendly practices into our operations. It is a commitment to safeguarding our planet for generations to come.

**Together, let's pave the way for a greener,
more sustainable future.**

Did you know:

- ✓ FriloTech uses solar power in the production process and warehouse.
- ✓ PCM and cool packs are produced with sustainable raw materials, lowering the carbon footprint.
- ✓ Wool from sheep living in the north has a lower U-value compared to other wool, making it particularly interesting for our pallet covers.
- ✓ Wool is biodegradable and naturally turns to mold when it decomposes in nature.
